Part Number : TPG100007 - Softlog ICP2-DS Production Quality ICSP Secure Programmer

The ICP2DS Production Quality ICSP Secure Programmer is an in-circuit programmer that operates as a standalone unit, and programs Microchip(R) 8bit PIC(R) MCUs and serial EEPROMs. The device dramatically reduces the risk of unauthorized reconstruction of hex files, and also limits how much code can be programmed. It features fast programming, 250 mA Vdd drive current, programmable Vpp (2.0 to 13.5V), programmable delay between Vdd and Vpp (0.1 to 240ms), programmable frequency (500KHz to 2.5MHz), 1MByte flash memory, Windows(R) DLL functions and command line interface for automatic programming.

Softlog is a trusted Third Party Tool provider [More Info >>](#)
