DESCRIPTION

You may have seen those fancy Android people with wireless charging built into their phones. Wouldn't it be nice if your iPhone 5 could do the same? With this snap-on sleeve, you can! Once plugged into your phone, you can use any Qi charging plate (we picked up one from our local cell phone shop). Just place the phone on the plate to recharge your phone.

The case is smooth and sleek and will look great on your iPhone. It doesn't come with an iPhone, of course, but does come with a wire-free capability that'll wow your friends.

[You do need a Qi transmitter to go along with the receivers - which we now carry in the Adafruit store.](#)

TECHNICAL DETAILS

- Input Voltage: 5V
- Input Current: 1-2A

- Operating Frequency: 100-200Khz
- Conversion Efficiency: 70%
- Charging Distance: 2-6mm
- Charging Current: 800ma
- Charging Voltage: 5V

Dimensions:

- 138mm x 62mm x 11mm / 5.4" x 2.4" x 0.4"
- Weight: 31g
