Key Features & Benefits

- Highly integrated SoC in which “Serial to Ethernet application firmware is programmed
- Provides market-proven ‘Serial to Ethernet’ firmware of WIZ107SR or WIZ108SR
- Includes MAC address
- Provides hardware reference design guide
 - Reference hardware schematic
 - Gerber files of WIZ107SR or WIZ108SR
 - Part list of WIZ107SR or WIZ108SR
- Supports firmware customization
- Software utilities for easy configuration
 - User friendly configuration tool program & its source code
 - WIZ VSP (Virtual COM port Program)

Ordering Information

Part No	Description	Order Now
W7100A-S2E-100	W7100A(100LQFP)+WIZ107SR Firmware	US, EU, KR
W7100A-S2E-64	W7100A(64QFN)+WIZ107SR Firmware	US, EU, KR

※ In the W7100-S2E chip, WIZ107SR firmware is programmed in default. If you need WIZ108SR firmware version, please contact to sales manager of WIZnet local office
