We manufacture Scotch-Brite™ SC Surface Conditioning Discs in a wide variety of grades and sizes and is an ideal first-step for cleaning, blending, deburring, and finishing. Our durable, non-woven fiber construction conforms well on irregular or contoured surfaces without undercutting or damaging the base material.

Additional Information

The open-web material runs cool and resists loading to enable prolonged operation while evenly distributed abrasives produce a high cut-rate for consistent finishing. Our Hook and loop system provides fast attachment and removal for multi-step finishing processes and also holds the disc securely during use. Our Scotch-Brite™ SC Surface Conditioning Discs use silicon carbide or aluminum oxide
